

Oscar Lindsey - Bottle Rocket

{Intro}

I don't care

I never was

Someone feeling the nice one buzz

The shade takes me out

{Verse}

I understand, I'm not superman

To get a couple steps backwards

I feel like this is it

You can't forget what you can't control

The time is running, I get so old

In the morning hours now

{Chorus}

I need a bottle rocket to take me away

Take me to the back and watch me fly all day

I got some air into a bag that I found

I can finally take my way off of the ground

{Verse}

But since I'm here, have another drink

And watch all my feelings shrink

Stuffed into a bar

I don't care, I got enough

The medicine went down so rough

I'm so tired now

{Chorus}

I need a bottle rocket to take me away

Take me the back and watch my fly all day

I got some air in a bag that I found

I can finally my way off of the ground
