

# **The Watch Committee - Now I Think the Other Way**

**Mmm**

**She's leaving me tomorrow, i would try to make her stay  
Before today, i'd thought i'd follow, now i think the other way  
She'll find someone else to kiss her, then she'll leave without delay  
Before today, i'd thought i'd need her, now i think the other way**

**She deceived me, i believe she wanted love for sure  
She just used me, then refused me, left me at the door**

**I knew that when i freed her, there would be no words to say  
Before today, i'd thought i'd need her, now i think the other way**

**She deceived me, i believe she wanted love for sure  
She just used me, then refused me, left me at the door**

**I knew that when i freed her, there would be no words to say (you know i need her so, you know i need her so)  
Before today, i'd thought i'd need her, now i think the other way  
Now i think the other way, now i think the other way**
