

Merlin Q - The Secret

**I can make you happy, baby, I can make you glad
I'll give you the secret of never ever being sad
And you can make a good thing right out of something bad**

**Oh baby, it's love, love is the secret
Oh baby, it's love, love is the secret
I need you every day and every way
I need you by my side, I can't hide the secret**

**Listen to me talking, hear the words I have to say
I can stop you walking down that lonesome road today
For I'll tell you the secret and I'll make you say**

**Oh baby, it's love, love is the secret
Oh baby, it's love, love is the secret
I need you every day and every way
I need you by my side, I can't hide the secret**

**I can make you happy, baby, I can make you glad
I'll give you the secret of never ever being sad
And you can make a good thing right out of something bad**

**Oh baby, it's love, love is the secret
Oh baby, it's love, love is the secret
I need you every day and every way
I need you by my side, I can't hide the secret
Oh baby, it's love, love is the secret
Oh baby, it's love, love is the secret
Oh baby, it's love, love is the secret...**
