

## **Whasianweeb - Something Free**

**Is my future set in stone?**

**I like to not imagine so**

**I know my fate, so can't i just escape it?**

**But deep inside, i know alas**

**That i am just his tragic past**

**He knew it too, but yet he still put on that headset**

**Jacked in, trapped in a carnival for life**

**It will never matter how damn hard i try**

**To be something i'm never gonna be**

**Something normal**

**Something free**

**Something free**

**I wish i could be something**

**Free just like a jackrabbit**

**To hop away without end: a dream!**

**But this rabbit's locked inside a cage**

**How can i live when all i see's**

**Him teasing her behind the screen**

**While knowing that the rabbit i see is me?**

**Is my future set in stone?**

**Hands trembling, i pick up the phone**

**But the contact list is empty and i'm all alone**

**So all alone, i sit and ask**

**What do i matter if unluckily**

**I'm to be nothing but a rabbit smiling with yellow teeth?**

**Jacked in, trapped in a carnival for life**

**It will never matter how damn hard i try**

**To be something i'm never gonna be**

**Something normal**

**Something free**

**Something free**
