

YNKEUMALICE - OLIVE OIL

**Saying I love feeling life
So I sit in the house all day
Miss my opportunity's
On my phone all day like I don't
Give a fuck today
I been in the lab working
On some new shit
Feeling like I'm on my Es
Excellence
Feeling like more to life
Touch grass enjoy nature
Feeling like city life busy life New York City
Feeling like life's a rush I just need to slow it down**

**In my room listening to tunes
Of bands and things reflecting
On life thinking about life
Thinking about things I wish I had control
Over thinking of world domination
It's just an abomination we live in a society
Of horrible people
Saying that the worlds cruel
But you be fine**

**Saying I love feeling life
So I sit in the house all day
Miss my opportunity's
On my phone all day like I don't
Give a fuck today
I been in the lab working
On some new shit**

Feeling like I'm on my Es

Excellence

Feeling like more to life

Touch grass enjoy nature

Feeling like city life busy life New York City

Feeling like life's a rush I just need to slow it down
