

Colourblind - Swing Me Off My Feet

{Verse 1}

Talk slow

Like walking on a tightrope

And where did all the time go?

For a second

Everything made sense and

I know that I need to float, to go

{Chorus}

The belt's out

And soon enough the lights pound

Swing me off my feet

Hold me from the ground

{Verse 2}

Smiling warmly

The big gloom dances round me

I might have found the missing piece

Would you tell me if you're missing me?

With a long kiss

I can find the bit that ticks

I feel like I can move a bit

Like reading from a movie script

{Chorus}

The belt's out

And soon enough the lights pound

Swing me off my feet hold me from the ground

The belt's out and soon enough the lights pound

Swing me off my feet

Hold me from the ground

I feel like dancing

{Bridge}

I bought the way that you said it

Unfiltered and stark on the dim light

I know the feeling, I felt it

Come on, it's mumbled so clearly

I feel like dancing

I bought the way that you said it

(I bought the way that you said it)

I bought the way that you're talking

Come on, it's mumbled so clearly

(Come on, it's mumbled so clearly)

I feel like dancing

{Outro}

Feel like I can dance too, but

(Don't know if I can make it up again)

I never feel like dancing so

Swing me off my feet

(And I don't know what's what)

Won't you take me with you

(And I hope this is the end)

I feel like I can dance too but

I never feel like dancing so

(Don't know if I can make it up again)

Swing me off my feet

(And I don't know what's what)

Won't you take me with you
