{Chorus}

**Baby, I don't know where to go
Baby, let's go stare at the moon
And you hurt me but it's okay
Just stay, okay?**

**Baby, I don't know where to go
Baby, let's go stare at the moon
And you hurt me but it's okay
Just stay, okay?**

Just stay, okay?

**I know you need me
I wanna be here with you
But I can't help the feeling
I'm too scared of you leaving
And it hurts sometimes this way
But please don't go away, the stars are here to stay**

But I can't help the feeling

And it hurts sometimes this way
But please don't go away, the stars are here to stay**
