

## **Adam Ford - I'm In**

{intro: trueme & adam ford}

Check

Ok

Been feeling tougher than jerky, i walk around with bin turkeys

Animatronics at night, the way that we can get quirky

Wait, what's a gurney?

It's like a wheeled hospital thing, nevermind let's start again

{chorus: adam}

Been feeling tougher than jerky, i walk around with bin turkeys

Animatronics at night, the way that we can get quirky

On the roll like a gurney, i took my friends on my journey

Now we're blowing up like tnt, with shaq kenny ernie

{verse 1: adam}

I'm in the fantastic four, and you're not even herbie

Want to go for it more, but the motives are murky

So everytime i make it less, i treat it like a birdie

Often not worth the stress, cause i know it'll hurt me

Heating up with the convection, not too much i can take

Pulled into the wrong direction, feel like leaves on a rake

Yeah i'm know i'm growing older but i'll still make mistakes

Felt an arm on my shoulder, turns out it was an ache

I'm in australia, but holding down the 978

I'm in amherst, wishing i was back with my mates

I'm in acton, thinking about the friends that had stayed

Now i'm in boston, questioning the choices i made

I want a lot, but really can i give enough in return?

Give or take, difference between them hard to discern

Always heard that life was tough and that i'd prolly got burned

Hoping that i get enough and it is what i have earned

**Yeah, what have i earned**

**Through dedication, respiration and the lessons i learned**

**Takes some concentration, with myself i gotta be stern**

**If i'm gonna be accomplished when i sit in an urn**

**{chorus: adam & trueme}**

Heating up the food then i breath again  
Moving on the clouds like it's bespin  
I'm learning but always forgetting  
I'm experiencing and always remembering  
I'm forgiving but never forgetting  
And i know when to end my own sentence  
Yeah i know, yeah i know**
