

Colourblind - Let It Slip

{Instrumental Intro}

{Verse 1}

Get your hand off of me
Let it slip that you might like it
But you've been talking to him
Trading lighters like it's nothing

{Verse 2}

Pretend he doesn't know my name
Don't break the gaze you shared now darling
Let it slip that you loved him
I feel it slip round my neck

{Chorus}

'Cause I would jump off a bridge
Give up my name
All you've gotta do is ask
I won't ask you the same

{Verse 3}

Throw the fight back to you
I know you're running for your life now
Back when the same kicked in
I swore I'd see this through
Blankets on our shoulders
In that backyard way up north
There's parts of me I hate
But this headache is yours

{Pre-Chorus}

So go on slip off your ring

**And I will tie an arm around you
Affection written in the sand
Did it all go to fucking plan**

{Chorus}

**'Cause I would jump off a bridge
Give up my name
Cause you don't really love me, do you?
I'll read the signs again, oh**

{Bridge}

**Ooh-oooh
Ooh-oooh, ooh**

{Outro}

**'Cause I've lost the way you gave me
(Let it slip you might like it)
I don't know who I am
(Cause you've been talking to him)
Those words, whispered clearly
Fires littered, it's too late**
