

Craig Scissorhands - ADDERAL ANGEL

{chorus}

Fall asleep looking at the wall

I can't talk to you 'cus you on adderall

Gotta watch my back 'cus i don't wanna trip fall

Realise no one cares what i say at all

I'ma faggot, i'ma weirdo

They don't care about me, that's where we go

I got over the pain in a week though

Somethings have changed me into a free throw

{hook}

Now i don't care what anybody thinks tho

I woke up, threw up inside a sink tho

Now i don't care what anybody thinks tho

I woke up, threw up inside a sink tho

{verse}

Let me die in peace

Let me die in peace

Everything was qi

Left me on the street

And the timĐµ it takes, takes away

Why did you go? could you stay?

Nobody makes mĐµ feel this way

Nobody makes me feel this way

And the time it takes, takes away

Why did you go? could you stay?

Nobody makes me feel this way

Nobody makes me feel this way

{chorus}

Fall asleep looking at the wall

I can't talk to you 'cus you on adderall

Gotta watch my back 'cus i don't wanna trip fall

Realise no one cares what i say at all

I'ma faggot, i'ma weirdo

They don't care about me, that's where we go

I got over the pain in a week though

Somethings have changed me into a free throw

{interlude}

There is far too much echo on my vocals but i don't care you can lick a cock

{outro}

Fall asleep looking at the wall

I can't talk to you 'cus you on adderall

Gotta watch my back 'cus i don't wanna trip fall

Realise no one cares what i say at all

I'ma faggot, i'ma weirdo

They don't care about me, that's where we go

I got over the pain in a week though

Somethings have changed me into a free throw

Now i don't care what anybody thinks tho
