

Colourblind - I Guess That's It

{Verse 1}

Have you felt it?

I still feel it

Hasn't hit yet?

I guess that's it

{Chorus}

I need to learn to be alone

It's killing me on my own

{Verse 2}

And I miss you

Do you miss me

I wish I could call you

What I would do to hear your voice

{Chorus}

It's killing me to be alone

I'm learning how to be my own

And I think I have blamed it all, on you

No-one's gonna love you like I loved you

{Verse 3}

Please can we talk?

Well I'm not sure

But I need to ask you something

Please can you leave me alone

{Chorus}

I think I have blamed it all, on you

No-one's gonna love you like I loved you

I wish I could blame it all on you

You need to move on there's someone new

{Outro}

I wish we knew what it was

When you found me stuck in the mud

And it won't ever compare

To what it was when it was still there

I wish we knew what it was

When you found me stuck in the mud

And it won't ever compare

To what it was when it was still there

I guess that's it
