

Adam Ford - Do You Really Know

{Intro}

Chilling on the low

I've been chilling on the low

I just wanna keep it close

Not with people I don't know

Aye aye, chilling on the low

I've been chilling on the low

I just wanna keep in close

{Chorus}

Yeah they passed on me

Yeah they really did me so

Did me bad low-key

I'm like do you really know

Do you really know

Do you really know how you act to me

Guess I'm caught up in the love, caught up in the love

Guess I'm caught up in the love, I just had to be

{Verse 1}

Had to be myself and stay true, stay true

Either love it or they hate you, hate you

You know they wanna replace you, erase you

Find a path and go straight through, the gate too

I know everybody's talking like they got it

Til it comes to being honest, then they act like they forgot it

Keep my truth secured I lock it, keep it stuffed inside my pocket

You can focus on the profit, but it's pain that you'll deposit

{Chorus}

Yeah they passed on me

Yeah they really did me so

Did me bad low-key
I'm like do you really know
Do you really know
Do you really know how you act to me
Guess I'm caught up in the love, caught up in the love
Guess I'm caught up in the love, I just had to be

{Verse 2}

This won't resolve itself
And now you're somewhere else
It's destiny you left
You don't know where to head
Running â€˜til you're out of breath
Lately, I think it's best
If you erase the hate and come to place within my nest
I know I did not care enough
I know emotions made it rough
Lonely hearts don't join the club, when you have to someone to love

{Chorus}

Yeah they passed on me
Yeah they really did me so
Did me bad low-key
I'm like do you really know
Do you really know
Do you really know how you act to me
Guess I'm caught up in the love, caught up in the love
Guess I'm caught up in the love, I just had to be
