

Craig Scissorhands - EVERYTHING SUCKS

{Chorus}

I see the look in your face
Something I cannot change
Why have you been so faraway?
From me, from me, from everything?

{Verse}

I know you don't mean good heart
It's not your fault my life hard
Nobody wants to love me, okay?
My issues is getting too large
{Why} the world keeps on turning?
My life keeps on burning away
Took off, cause you are rough
I think of clouds, wish I was a cloud that was floating away
That was floating away, that was floating away
There is another thing that comes dead
Then everybody come be a chewed-up {?}, think I won't
Gotta fix this up, I think I don't
{?}
Do whatever I can, don't wanna let you go
Probably gonna leave me, {I'm only gonna be pissed off}
When you gonna leave when you can just go?

{Chorus}

I see the look in your face
Something I cannot change
Why have you been so faraway?
From me, from me, from everything?

(x2)
