

Whitney Bjerken - As U Walked Away

{Verse 1}

Picture perfect like they are in the movies

You held the door

And we'd sit on a bench

And drink smoothies

Never a fight

Nor a single moment in vain

That's why I never expected

What you said to me on that day

In the rain

{Chorus}

My heart stops

The look in your eyes made my face drop

The weight of the world on my eyelids

How could you leave me like this

All alone now

A piece of my heart has been torn out

As you turn your back

Now there's nothing I could say

When you looked at me that way

I'm left to feel the pain

As you walked away

{Verse 2}

How long will it take for me to get over you

The feeling I felt is absent and filled in with blue

Now I'm pulling my hair out I can't sleep

My thoughts stay awake

Did I do something wrong

Was it my fault

What made you break

Too hard to take

{Chorus}

My heart stops

The look in your eyes

Made my face drop

The weight of the world

On my eyelids

How could you leave me like this

All alone now

A piece of my heart

Has been torn out

As you turn your back

Now there's nothing I could say

When you looked at me that way

I'm left to feel the pain

As you walked away

My heart stops

The look in your eyes made my face drop

The weight of the world on my eyelids

How could you leave me like this
