

Whitney Bjerken - Christmas Feels Weird

{Verse 1}

The lights are up
But the moon is down
I wish that jingle bells
And Santa could always stick around
At least we're all together
Not my parents
But that's fine
Wish I'd stay young forever
Growing up should be a crime

{Chorus}

The tree starts shining a little dimmer
What the hell is wrong with me
The month rolls by just a little quicker
The magic's gone
Completely
Thought that it would always
Feel the same somehow
But now that I'm here Christmas feels weird now

{Verse 2}

Time with family
It's always fun
But it hasn't really felt the same
Since we lost that special one
Maybe it's just part of growing up
And moving on
The things that adults like Christmas
How do I feel it when it's gone

{Chorus}

**The tree starts shining a little dimmer
What the hell is wrong with me
The month rolls by just a little quicker
The magic's gone
Completely
Thought that it would always feel the same somehow
But now that I'm here Christmas feels weird now**

Ah Ah Ah..

Oh..

Oooh..

HHmm..

{Chorus}

**The tree starts shining a little dimmer
What the hell is wrong with me
The month rolls by just a little quicker
The magic's gone
Completely
Thought that it would always feel the same somehow
But now that I'm here Christmas feels weird now**
