

Tomato Babies - Headlights Remix

{intro: eniem}

Yeahhhhhhh

We stealing eminem's verse now?

{verse 1: eniem}

Football, football, i love football

Yes, tres, dos, uno

Dos, tres, fuck, shit, bitch, asshole, son of a bitch

Everybody cuddle, blah i mean huddle

I just stepped in a mud puddle, butthole

Freak, who just tapped on my ass cheek?

Nevermind, let's try quarterback sneak

Cover me, smother me with love that's brotherly

That didn't work, try another play

Hut one, hut two, hut hut, hurry up

I'm reaching up another grown man's butt

Hike the ball, i mean i like wee wee

But jesus, he hikes, i think i can feel his balls

My dick is long as it is hard, yeah, so are my balls

It's the longest yard, whoops that's not the chorus

Run it back, wrong song, yeah disregard

That whole statement i just made, what yard line we on?

Our own 5 and our timeouts are gone

Less than a minute left, i just throw my ball

To the sideline to von, he steps out of bounds

48 seconds left on the clock but every last one counts

Call another huddle, we're down by six

The plan is, to throw the ball to taylor swift

But he's so god dang high that he trips

Falls and slips, legend grabs him by his fingertips

And runs the ball all the way down to the one
But he don't get in, but all we need is a put, put.. *mumbles*
But all we need is a touch down and an extra point to win
But then i get sacked all the way back to the ten
God dammit i'mma slap somebody if i get tapped on the ass again
Everybody's laughing now, no timeouts and its now fourth down
We're never gonna make it, wait, i just got an idea
Quick, everybody get naked, wee wee go long
I'mma throw the bomb, c'mon how they gonna tackle you with no pants on
Ass out with a flopping schlong, touchdown! yeah, i told you

Saw joe biden and tried touchin them
He decided to beat my ass
Put my face into grass

Diaper rash
Kiss an ass
