

William Caesar - Easier Done Than Said

{chorus}

**It's easier to love you than to say i love myself
It's easier to trust you than to say i need some help
It's easier comfort you than to say i'm tired of being tired
You say that there's a fire**

But who would listen?

**Easier done than said
I can take your words to heart
But i can't repeat the best part**

{verse 1}

**I go days reminding myself of your death
But i could never say my condolences
I'd end my life just to have you as my friend
I'd never be my friend, not once or again**

{chorus}

**It's easier to love you than to say i love myself
It's easier to trust you than to say i need some help
It's easier comfort you than to say i'm tired of being tired
I say that there's a fire**

But who would listen?

**Easier done than said
I can take your words to heart
But i can't repeat the best part**

{verse 2}

**You tell me life stories, words too vivid to paint
But i never respond, too caught up in my pain
But i would never tell you what i'm going through**

I only want to care about you

{chorus}

It's easier to love you than to say i love myself

It's easier to trust you than to say i need some help

It's easier comfort you than to say i'm tired of being tired

I say that there's a fire

But who would listen?

Easier done than said

I can take your words to heart

But i can't repeat the best part

{verse 3}

Family ties with a knot somewhere along the line

A lump in my throat from the thoughts trying to come alive

My mother's death is the only thing i care about

But would i say i love you if you came back around?

I think it, just don't say it

I believe it, just don't pray it

Your final words engraved in my mind

I forgot what you did for my life
