

## **Frawst - Thanks Again**

**You believed when nobody else did  
Still playing the hand i was dealt with  
Stress got my chest feeling like it's caving in  
Need a star for my name to engrave it in  
Recognize the mistakes i made back then  
No malice in my heart these days i live  
With the shame just wishing that the pain will end  
Hopefully one day we can make amends  
Hopefully one day we can make amends  
And when i think about you  
I just want to say thanks again  
Thanks again  
Thanks  
Thanks again  
I just want to say thanks again  
And when i think about you  
I just want to say thanks again**

**Can't keep living life this way  
These thoughts inside my head won't leave  
My demons pull me out my sleep  
Won't rest until i've found some peace  
My nerves are shot from things i fear  
I lay in bed fighting nightmares  
Then i wake up and cry real tears  
I should be dead but i'm still here  
Recognize the mistakes i've made back then  
No malice in my heart these days i live  
With the shame just wishing that the pain will end  
Hopefully one day we can make amends  
Hopefully one day we can make amends**

**And when i think about you  
I just want to say thanks again  
Thanks again  
Thanks  
Thanks again  
I just want to say thanks again  
And when i think about you  
I just want to say thanks again**

**Hopefully one day we can make amends  
And when i think about you  
I just want to say thanks again  
Thanks again  
Thanks  
Thanks again  
I just want to say thanks again  
And when i think about you  
I just want to say thanks again**

**I**

**I**

**Wish i could turn back time and make amends  
Maybe we should be just friends  
We both know love dangerous  
I just want to say thanks again  
Hopefully one day we can make amends  
And when i think about you  
I just want to say thanks again  
Thanks again  
Thanks  
Thanks again  
I just want to say thanks again  
And when i think about you**

**I just want to say thanks again**
