

Nicole Appleton - Don't Let Life Get You Down

**People think that life's just a mountain
Even though it's just a little hill
People ask me if my name is Fantine
Even though my real name is Bill**

**Don't let life get you down
Even though the world might get you down
Don't let life, don't let life
Don't let life get you down**

**Everyone around me is sleeping
Even though the world is spinning fast
Everyone around me is sleeping
And I'm not sure that I'm not boring**

**Don't let life get you down
Even though the world might get you down
Don't let life, don't let life
Don't let life get you down**
