

NUFFER - Slack

{Intro}

NUFFER (Music)

{Verse 1: NUFFER}

I felt the feeling coming fast

Throw it all down and hold me back

{?} would never cut you slack

Smoke the whole pack, it hits the sack

It's never {?}

{Pre-Chorus: estelle allen}

{?}, for one

Worry 'bout somebody but yourself for once

You'll feel bad in your own way

I tried to tell you that I tried, it's done

I'm fine, I'm gone

{Chorus: NUFFER}

Call me a doctor

I've gotta feeling

You're moving through circles

While I hit the ceiling

{Outro: estelle allen}

Draw me a picture

I'll send you a postcard

That was the problem

I miss you
