

Kanye West - Start Time

{intro: fats gonder, kanye west}

So now ladies and gentlemen, this is star time (yeah, uh)

Are you ready for star time?

{verse 1: kanye west}

Life of the rich and gorgeous

Someone gonna be forging it

I told my dad i would have been aborted

If i wasn't the one that put the cord in

Pulling up in something looking foreign

Remember when a nigga couldn't afford shit

Now i get the order

Thumbing thumbing through my wallet

Automatic toilet, now that's the shit

Popping off with the orbit, i got ya' bitch

Let it go

{chorus: the-dream, kanye west, rick james}

Goddamn it, i need you now

Goddamn it, i need you now

Goddamn

And if you're out in the crowd

Goddamn it, i need you now

Goddamn it (don't you play no)

Don't you play with ya!

{verse 2: kanye west}

Let me fix my neck, chain on

Let me fix the check, games on

Let me thump a thump game on

And ain't nobody playing with him, no

Summertime rain with him, no

They all layin' with him now
So i got the marvin williams with him now
No one wanna pray with him, no
Want it done, bathe in it now
Wanna get a raise with him now
Something down in nah-ney with 'em now
Like we always
Talk to me like we always
The illuminati
Dirt bike or a kawasaki
Bottle up on a new party

{chorus: the-dream, kanye west, rick james}

Goddamn it, i need you now
Goddamn it, i need you now
Goddamn
And if you're out in the crowd
Goddamn it, i need you now
Goddamn it (don't you play no)
Don't you play with ya!

{verse 3: kanye west}

Oh, you been
Something i can you bitch
Only one and they don't forget
{?} we 'bout to get
Yeah i walk
Pop sampling
Hold on
Fall out all about
What y'all about?

{chorus: the-dream, kanye west, rick james}

Goddamn it, i need you now

Goddamn it, i need you now

Goddamn

And if you're out in the crowd

Goddamn it, i need you now

Goddamn it (don't you play no)

Don't you play with ya!

{verse 4: kanye west}

With your praying hands

For you lil' niggas, i'm way advanced

And i don't write rhymes, i write tattoos

And when i die, they build statues

You niggas ain't got the cashews

From the city where cash rules

'till they run up on a bad mood

Bitch, that's a bad move

Bitch, get out the way

Someone gonna get out today

And i know i was gone for a minute

But need to get out today

Now let us get this money

Sell it for {?} if i want to

{chorus: the-dream, kanye west, rick james}

Goddamn it, i need you now

Goddamn it, i need you now

Goddamn

And if you're out in the crowd

Goddamn it, i need you now

Goddamn it (don't you play no)

Don't you play with ya!

{verse 5: kanye west}

Don't play, boy

Someone {?} what you made, boy

Hoppin' in the mansion

Waking around with a robe on

I could have started playboy

Cause i married a playmate

{?}

When you stay eight

And they rate

{?}

I kinda want the nudes

Something for when i'm in that mood

Woo
