Pull harder, strings, martyr

"Stop!," you cry, "That's a lie!"

Flush, gasping, white, reddening

You smile and destroy it, it's time that we end this

It's our curse that makes this world so hopeless

Allowing our king to spread his genocidal wings

Clawing the skin, each kill, your weakness

Annihilation (Annihilation), masturbation (masturbation), tyrant, I'll burn you

For every life you've taken
