

Kon Kan - Stars

{Verse 1}

**Well here we are, I'm back again
Pushed to the limit but I never reached the end
It's bright up here, it's bright down there
When all the mist is gone the truth is crystal-clear
There was a time, there was a way
Had something going on but then to my dismay
C'est la vie, what can you do?
I know the time is now to find somebody new**

{Pre-Chorus}

**Theirs is shinin' like the birds inside of me
Fire burnin' bright no-one can see but me
A passion caged inside it defies gravity
Sometimes I hide it then at times it's time
I gotta set it free**

{Chorus}

**I'm gonna get those stars, get that moon
Don't think that I'll be coming back down too soon
I'm gonna get those stars, get that moon
Don't think that I'll be coming back down too soon
I'm gonna get those stars, get that moon
Don't think that I'll be coming back down too soon
I'm gonna get those stars...**

{Verse 2}

**And now I'm here, and I'm back again
Pushed to the limit but I'll never reach the end
I jumped up high and I had my falls
I learned a lesson: never ever drop that ball
So run for it run, stay in the game**

**Cause if you don't you got nobody else to blame
Yeah run for it run, keep reachin' high
And don't you ever let 'em steal and tell those lies**

{Pre-Chorus}

**Theirs is shinin' like the birds inside of me
Sometimes I hide it then at times it's time
I gotta set it free**

{Chorus}

**I'm gonna get those stars, get that moon
Don't think that I'll be coming back down too soon
I'm gonna get those stars, get that moon
Don't think that I'll be coming back down too soon
I'm gonna get those stars, get that moon
Don't think that I'll be coming back down too soon
I'm gonna get those stars, get that moon
Don't think that I'll be coming back down too soon
I'm gonna get those stars...
I'm gonna get those stars...
I'm gonna get those stars...**
