{Chorus}

Got first class tickets flying coast to coast

My tracks played local now I'm national

Got first class tickets flying coast to coast

Cause you know I'm about to make it

{VERSE}

Catch me in the place I'm about to make a future

Your native expression better than I'm used to

Let me tell you how to live a dream

Coast to coast flying bro I'm not worried about them little things

I got a job to do, so I grab the mic

I found my love in life, now let me go and write

I tell you how I'm living with this southern vision

From the west to the east we gots to fucking get it

I see them goals now, tell me what's the mission

My boy up on the beat, now I got to kick it

Now I got a vision, I'm a doctor with it

Let me operate, I sit and concentrate
