

## **William Caesar - Wake Up**

**{Verse 1}**

**Life was going smooth, wind whistles in my ear  
Sweet melodies, the sweet touch of a peer  
Grass a shade in dreams, the water by the pier  
It was flowing so smoothly with you, my dear**

**The stars a shape of monsters that exist in imagination  
The train got to its station  
It was time to wake up  
Realize what you've done**

**{Chorus}**

**The liquor in your stomach  
The pills stuck in my gullet  
It woke me up  
I wasn't enough**

**The lack of our loving  
The lack of our trusting  
Pinch me, this must be a dream  
Maybe I shouldn't wake up this week**

**{Verse 2}**

**Drizzle soaked the newly bought pillowcases  
REM sleep seemed free in most cases  
Avoid all of the costs, avoid all that's hard  
Bull in a China shop, pay for the broken shards  
Once I walked through the door, it was too late  
I had mirrors in my sleep, showed me my mistakes  
It was time to wake up  
Realize there's no luck**

**{Chorus}**

**The liquor in your stomach**

**The pills stuck in my gullet**

**It woke me up**

**I wasn't enough**

**The lack of our loving**

**The lack of our trusting**

**Pinch me, this must be a dream**

**Maybe I shouldn't wake up this week**

**{Verse 3}**

**I hope I never wake up again**

**I hope I never make a friend**

**I can't stomach living life**

**Regretting all my tries**

**If you die in your dreams**

**You die in real life**

**It's time to go to sleep**

**It's time to stay goodbye**
