

## **ONB - Cruise**

**{verse}**

**On my way to new destinations  
Trying to find more than some pretty faces  
Sexy young thing she been speaking spanglish  
So its hard to know what she's really saying  
Honestly been on a different wave  
Coast to coast in a different state  
Moved up new love always screwed up  
Yet i'm still trying to spit some game**

**Come take a walk with that onb  
Have a little talk how they notice me  
Spark a little flame bring you close to me  
Let me get a taste of them l i p s  
LovĐµ so strong like  
Never fĐµlt this in my whole life  
And i swear i don't lie  
Let's give em something else they don't like**

**{chorus}**

**Come & take a cruise with me  
I swear it's all them things you do to me  
Smile so bright like jewelry  
Baby this is new to me  
And i just wanna see how this can go  
Ohhh woah, woah woah  
Baby how far will this even go  
Ohhh woah, woah woah  
Baby how far will this even go**

**{verse}**

Let me take it back to them days of t pain  
In love with the bartender  
I'm thinking i can go far with her  
Lifting off i'm in the stars with her  
Country side on a lovely night  
Me and you and this summer sky  
Hypnotized with them hazel eyes  
Bad baby she just my type

And i really wanna work for it  
Speak my love and reverse them hips  
Make a cute face when you perk them lips  
Wandering if i deserve this shit  
But i do and this is true  
Me and boo on this love cruise  
My heart's used her heart is bruised  
Bet i know how to lift your mood (aye)

{chorus}

Come & take a cruise with me  
I swear it's all them things you do to me  
Smile so bright like jewelry  
Baby this is new to me  
And i just wanna see how this can go  
Ohhh woah, woah woah  
Baby how far will this even go  
Ohhh woah, woah woah  
Baby how far will this even go
