**[Verse 1:FalcoSoFly]**

**People talking shit but they ain't it  
They copy your whole thing,I'm talking brick by brick  
Free the shiners,to me they didn't do shit  
Who set home boy up?  
You a dirty fucking snitch  
I beat the opps. I beat the opps  
I ain't wait for police to come  
She say that it tastes like almond milk when I cum  
Name my kingdom kingdom cum  
You're wel cum  
Without you I won't cum  
Put an X next to my name like I was Mal Cum  
Yes I'm the Fal Cum**

**[Verse 2:FalcoSoFly]**

**Got it straight off the dome like Sandy's house  
Said you got my location  
When you pull up to my home town you're getting the fuck out  
Rappers would do anything for clout  
Why you slurring? Is it cuz you got a dick in your mouth?  
I say get your pussy lips off then you can air that shit out  
They claim they gangsta but I could never hang wit em  
People say that I'm the drug trading black Eminem  
Got these comments so many times  
I pray to the slimes  
They got Keed,I wouldn't let Gotti die  
Shit,I wouldn't let any of em die  
You know me,I got gang ties  
Got a good grip on this shit like I'm the main character in a hentai  
Won't lie  
With them Levi's,you is not fly**

Cause only real gangstas watch Family Guy  
I might shoot my shot like Hawkeye  
See really, I have three eyes  
I opened my third  
Because I realize  
Old rappers been cloned  
And placed back into the game  
With a different name  
And a different chain  
And different feature status  
I find these beats thanks to my apparatus  
[Verse 3:FalcoSoFly]  
They say I got better  
Bitch I've been better  
I'm a go getter so I might just go get her. Shit all over the beat like my  
name was Amber Heard  
Wait, Amber Turd  
That's her real name, ya heard?  
On that pussy I'm gon swerve  
And these niggas never learn  
To take their lives more seriously  
That is a concern  
Like Ellie Goulding, I'm gonna make this bitch burn  
Talk of the town, yeah my name can't stay out of your mouth  
Just like braces  
You fuck niggas better know your places  
The choppa's white and I gotta say, that's kinda racist  
Me and my niggas in this shit together like we were the freemasons  
It ain't the 13th or Friday but fuck it, I'm Jason  
Told this bitch to be patient  
Shit, could've been a doctor  
Why?  
Cause I have so much patients

**The Glock take a number 2**
