

Prez Harris - Get out

|Chorus: Geronimo Approved|

I wanna get out

But they won't let me out this house

I wanna get out

Get me out this house, let me out this house

I wanna get out

But they won't let me out this house

I wanna get out

Get me out this house, let me out this house

|Verse 1: Prez Harris|

Yeah, uh

Nothing, something

Always in a race know we running on Dunkin

Trapped inside a place where it finally sunk in

I'm bunkin' class used to think I would flunk then

Know they got the ropes waiting for me to jump in or jump out (jump out)

It's too late to punt now

Cause if I drop back then I'm laying a bunt down

And running running running like I need a new pump valve

I wonder what it be like (I wonder what it be like)

Cause I been looking around it's really not what it seem like (cause it don't never seem right)

And if I'm thinking out loud, I'm in the clouds with a green light, green light, wait

Stream like, stream like, hey

We might be okay

Hey, I wanna get

I wanna get over you

The feeling been overdue

Can't let it take hold of you

You feel it, you supposed to move

I wanna flow with you

I wanna

[Chorus: Geronimo Approved & BeeDotKay]

I wanna get out

But they won't let me out this house

I wanna get out

Get me out this house, let me out this house

I wanna get out (oh)

But they don't let you out this house (BeeDotKay)

I wanna get out

Get me out this house, let me out this house

[Verse 2: BeeDotKay]

Yeah

I need a time out

Don't got a whole lot of time though

**Gotta get away, take a bus, take a train, take a plane to a whole different
time zone**

Airplane mode is what I'm on

While my girl rock the mic hitting high notes

She want to see how Kings from the Chi go

She want to treat the bed like it's skyzone

No stress, just sex all day

3 nights, 4 days, in a 5 star stay

Roll up, pass that, puff puff partake

I pray yo thighs only thing part ways

Ever feel life coming at you and all you ever get is the bad news

Only thing you really trying to feel is the sun on your naturals

Fresh from the beach, kinda drunk, getting tattoos

I need a get away

Thinking I could stay away away

I need a get away

I want to get loose, high as a cloud, drink 'til I drown

|Chorus: Geronimo Approved, BeeDotKay, & Prez Harris

I wanna get out (oh please)

But they won't let me out this house (they don't let me go no)

I wanna get out (I need a get away, yeah)

Get me out this house, let me out this house

I wanna get out (somebody rescue me)

But they don't let you out this house (they don't let you go no)

I wanna get out (I need a get away)

Get me out this house, let me out this house (oh please, oh please)
