

Prez Harris - Maybe

[Verse 1: Prez Harris]

Yeah

You used to look at me with calm eyes

And a smile from a dream I ain't seen in a long time, all mine

Thoughts would creep that you could be my all time

Crazy how I found you in a long line

Patient we was waiting on the real world

Knew that it was coming when we saw signs

Still we lost time

I was cocky, you broke it off with me any ways

Tried to stop me, couldn't share a part of me many ways

Stressin' college, sought for solace in different ways

Felt like I need you, you needed me, it's a simple thing

Maybe wĐµ was in a daze

Maybe we in thĐµ way

Maybe ain't finish things

Maybe we syncopate

Maybe we drink away all the pain it bring on days

Memories of you and me thinking we would be some day

[Chorus: Bianca Shaw]

Maybe it was young love

Maybe we was stronger

Maybe we was under

Couple spells that was undone

Maybe we could run from

Maybe we should run from

Everything we come from

Maybe this was young love

Or maybe it was one love

Maybe it was one

[Verse 2: Prez Harris]

Different cities, a different pace

Different chapters, got different pastors, and different race

Too many differences put yo mind in a different space

Only thing we had in common was this commonplace

Love playing house you moved around a lot

Yo apartment right off Sherman was my hiding spot

That summer I would role-play as yo guide a lot

I ain't gone lie it felt we'd tie the knot

But it got rocky you broke it off with me anyways

Wasn't shocking we hadn't talk in too many days

We grew distant the instant you hit the interstate

I guess we made it, I hate the line had to end today

Maybe it just is a phase

Maybe we in the wrong

Maybe the world will change

Maybe I'll end this song

Maybe I'll pray for you and hope that theres a day for you

You find someone to cherish you and make you feel the way I do

Maybe it was young love

[Outro: Bianca Shaw & Prez Harris]

Maybe it was young love (maybe it was, maybe it was)

Maybe we was stronger (Couple spells that was undone)

Maybe we could run from

Maybe we should run from

Everything we come from

Maybe this was young love

Or maybe it was one love

Maybe it was one

Maybe this was young love

Or maybe it was one love

Maybe we was one

Maybe we was one
