

Logy1 - Level Up

|verse 1: logy1|

Straight back when asking enemy and dealing the middle crown

And my name i got from my mom when i was 2 years old found

Back to the past a bit i can't go back to my account

But i said it was made up when i made this fucking sound

(look)

I work hard or you don't shine when you take my gold silver crown

Made a big impact in my city and then i made it around

Walk in company and get recruit team from people around

Check the script when i get added value from my town

|chorus: logy1|

Up 6x level up. up 6x i leveled up

Up 6x level up. up 6x i can level up

|verse 2: logy1|

I like to waste time making money with energy.(g)

Not the time to pass up worrying memories.(what)

Fly high to the top through my enemies.(huh)

Kill my anxiety, devil come to me

I'll be fine with the pain and i can tell you for free.(whoa)

Free wi-fi is used to assess all mysteries

Mystery can create two and one mastery

Signature industry dealing with companies

(look)

|chorus: logy1|

Up 6x level up. up 6x i leveled up

Up 6x level up. up 6x i can level up

|verse 2: logy1|

I have made mistakes from my past and my soul is screaming so loud

**Can't explain this feeling with the pain left on the spot
I keep on at night saying i'm fine to make parents proud
Everything is fine when stuck in darkness and i pray to god.(look)**

**Fuck the middle staff can link the gangster members to riot
He talks about me but i have reached the level up
Niggas say, i better use some small fucking cups
You better slide or i get revenge by leveling up**

|chorus: logy1|

Up 6x level up. up 6x i leveled up

Up 6x level up. up 6x i can level up
