

Logy1 - I WANT TO GET WHAT I SAID

[verse 1]

Instrument while making like a thousand times in my head

I got 40 elements when i made sadness bad

44 and 21 make story lessons die

If you work on the core and make time balance, get.ac

Uh, 20 visions with the process every chance i get

Changed the story of my life even though it had to wait

I can smile with the illusion rotting in my head

I can make life easier by never wanting to wait

[chorus]

Hmm, i just want to make this escape. hmm, i want to every chance i get

Hmm, i want to get what i said. hmm, i want change when i get it

Hmm, i just want to make this escape. hmm, i want to every chance i get

Hmm, i want to get what i said. hmm, i want change when i get it

[verse 2]

7 miles away in the sea of death

I just want to get all my hobbies and fashion 8

Go back to the lawyer, and get the information. dead

Satan wears and stupid niggas to balance fake

Fuck it, dark side (side), i fall into the dream light

Light and white, i think the demon standing above the smile is dead

Dead inside, i'm traumatized when i see my past tight

Tight in my life as i grew up in the moonlight

[chorus]

Hmm, i just want to make this escape. hmm, i want to every chance i get

Hmm, i want to get what i said. hmm, i want change when i get it

Hmm, i just want to make this escape. hmm, i want to every chance i get

Hmm, i want to get what i said. hmm, i want change when i get it
