

## **Logy1 - No One Trust**

**[Verse 1]**

**When my enemies look at me like trash. I can move when I have a lot of stress  
I just cried it was a long night, I need rest. only wrong at night when making a lot of cases**

**Afraid of the lack of reason from my secret. I will make to see  
I'm worried if my memories and make enemy  
Maybe take the time to make a lot of energy  
Trauma in the past that makes me feel anxiety**

**[Chorus]**

**When I make a lot of progress that's where no one trust  
I only make it right when my mistake is class  
It made me think like turning a rebel to dust  
I had a chance to roll over and make dust**

**[Verse 2]**

**I have room to create one diss. I got this soul and changed the list  
Makes me confused when I want this. Better to die if it's never fixed**

**I think I've come that far, when thinking makes me fall  
I just saw this war. I just did it so far**

**[Chorus]**

**When I make a lot of progress that's where no one trust  
I only make it right when my mistake is class  
It made me think like turning a rebel to dust  
I had a chance to roll over and make dust**
