

Sacri - my friday night funkin mod about a guy named glob

**If I made an FNF mod
It'd be about a little guy, his name is Glob
He'd be able to fly around
In the sky, but you'd fight him at a playground**

**Pico would be there and he'd be so cool
But you can't take my man Glob as a fool
Because Pico gets shot in the head
And that forces Glob to get all red**

**He goes super power mode
And everything around the Boyfriend gets slowed
Girlfriend's head's just bopping around
Oh my God, there goes the playground
I've written a whole lot of mechanics down
I think that maybe Tricky the Clown
Should make an awesome cameo
So the Girlfriend turns up the stereo**

**Shaggy, Bob and Sarvente
Should all be wary of the fateful day
When Glob starts appearing on YouTube
With clickbait such as "Glob in the backrooms"**

**Enough of all that Sonic stuff
The .EXEs have had enough
It's time for Glob to make his debut
Maybe Glob will decide to spare you**

**First off, change all of the arrows
I'd do it myself but I don't know how to code**

**I'll change the sprites of the Boyfriend we know
That way he can look unique to my show
Add a bunch of mod characters in the crowd
That way when they see, their fans will scream loud
If I do this, my mom will be proud
Or I hope, she doesn't talk to me anymore**

**If I made an FNF mod
It'd be about a little guy, his name is Glob
He'd be able to fly around
In the sky, but you'd fight him at a playground
If I made an FNF mod
It'd be about a little guy, his name is Glob
He'd be able to fly around
In the sky, but you'd fight him at a playground**

**Friday Night Funkin' stands no chance
When the Glob mod dabbles in romance
Boyfriend's gonna get real cucked
When he sees that Glob got the Girlfriend... uh... stuff**
