

Sacri - VIRUS

**Just a simple computer program
Hope I'm not a pain
But this virus I have installed on me
Makes me go insane**

**I love you as you can be
Open this email and you can see
Buy this pill on sale for free
And let me enter your reality**

**You've got mail
You've got mail
You've got mail
You've got mail
Congratulations, you won!
Congratulations, you won!
Congratulations, you won!
Congratulations, you won!
Just a simple computer program
Hope I'm not a pain
The mafia has just entered my brain
And now you'll have to pay**

**A handsome little fee
You can't just leave for free
If you don't pay in the next 24 hours
Then say goodbye to me**

**Sorry
It's not my fault
The hackers have locked**

My mind in a vault

As it is

I cannot stay

I wish these hackers would just

Go away

Although it has been fun

The end has just begun

Now throw me in the dump

So I can't |REDACTED|

Just a simple computer program

Hope I'm not a pain

But this virus I have installed on me

Makes me go insane

Was a simple computer program

But I was a pain

This virus that you installed on me

Made me go insane

Congratulations, you won!

Congratulations, you won!

Congratulations, you won!

Congratulations, you won!
