

Bing Crosby - Where the Rainbow Ends

**Have you ever climbed a hillside
Stood beneath the gentle rain
Tried to look beyond forever
And see just where the rainbow ends**

**Have you ever seen the sunshine
When the colors start to bend
Do you ever get to dreamin'
And wonderin' where the rainbow ends**

**It's a land where I've been told
All the sky is blue and gold
And the meadows are a pleasant green
Where the flowers in the trees
Sing a message to the breeze
And the song is one of happiness**

**O if I could only go there
I would call the rain my friend
I could live my dream forever
And journey where the rainbow ends**
