

## Huntaps - CAMELOT

[chorus: huntaps]

It's 3:30 in the morning and we still up  
Just chilling by the island playing flip cup (yeah)  
Couple broads in the bathroom, fixin they makeup  
Then we hit the stu right after we hit the blunt (what)  
Right after we entertain the broads  
Right after we chief and smoke 'em out  
Right after i take that shot  
2pac, i hit em' up, still going down

[verse 1: huntaps]

We move around, i take brand new trips like every other month  
You hear this sound, cooking beats from scratch i eat 'em up for lunch  
I'm in her town, if you want huntaps you get a chance but only once  
Next day i'm out, if i post up any longer i'ma give her what she wants (what's that?)  
Shit i'll never say  
Cause some things are better untold, they'll misconstrue your words, turn you to prey (yuh)  
Coming at every angle, need to get rid of demons and start finding angels, no rey  
Receive some blessings like a business with a triple p loan, where you ain't gotta pay (woo)  
Take some flights, pop some bottles, cop drippy v loan, living lavish every day  
Then you get the irs on your ass cause you took advantage of they mistakes  
I just want it to make sense like all of the records i produce, when you hit play  
And it's even less than that cause streaming don't pay, finessing in multip
