Saber - COCAINE HIGH

Intro:

Swear they told you lies

When they told you I will love you

Baby my heart is on ice

Not the one you can trust with your heart

I swear I am not 'right

But I can take you on a ride

Cocaine high

Don't you blame me, when you get hooked

Come on a ride

Verse:

I can give you everything

You ever wanted from a lover

In an exception that it's only for one day my love

One dose, is what I can get you for now

I can take you to the clouds

But it's gonna hurt when you come down

When you find out there's nobody around

Certified lover boy of the streets

Code name, pimp

Haven't been inlove in a while

Kinda putting love aside

Last girl led me on, on a ride

Last girl sold me alotta lies

She was not what she promised

My intentions were solid

Showed her pure love

I guess she wasn't ready for that...
