

Saber - FAKE MONALISA

Verse 1:

**They don't know how it feels to see an angel
I felt it when I saw you
Fuck it, I went and I chose you
Everything, I did it for you
Kasi love stories, kissing at the Switch
Grab everything on me, make these girls want a piece
Yellow mellow, she would shine with me
Yellow-yellow, when she slides with me
All of sudden she became so distant
So cold, when I was 'bout to lower my defences
I was less hurt, more dissapointed
She wasn't half what I was promised**

Inter-lude:

**And she let me go
It was fine with me
Then the streets found me**

Hook:

**Prayed for a long time
Lisa, my Mona
Dance in the moonlight
She was a diamond
You couldn't find at any jeweler**

Post-Hook:

**But she let me go
It was fine with me
Then the streets found me
And they showed me love**

Verse 2:

**Let her tears be in vain
Prolly just acting like she is in pain**

They always come back, crying in the rain
Found me in streets, left the love train
Now I'm the cold one?
Touchin' on me tryna locate that soft spot
I don't have that anymore
They cut it out when you join up
I would still have it, if you chose us
But you chose to go
Didn't wanna fly with me
Then the streets found me
Yah, yah, yah, yaaah
Hook:
Prayed for a long time
Lisa, my Mona
Dance in the moonlight
She was a diamond
You couldn't find at any jeweler
Post-Hook:
But she let me go
It was fine with me
Then the streets found me
And they showed me love
