Uh talk to me

Uh it just talk to me

23 years in this life but i never felt my god with me

Till i spoke to him

Plenty hours spent in the hole i had dug out for the body i hold

But i stepped back from the edge of the uh bridge

Dirt

Whole lotta earth in my

Up in my eyes

Hurt

I do not feel that emotion i hold too much worth

The worst

Of parts

Is i dont react

I just burn slowly

And i love how the embers can smoke out my soul for me

If we

Had turned now

And i lived

Id let u eat me

And if it

Was roulette

Id pull thĐµ trigger six times and make surĐµ to let u live

I can't deal with this sober

Ok

For all the drink i had cause u i swear

Ok

I would need a liver donor

Ok

I dont sleep in the bed

And she catch me in cupboards pouring fluid in my cup im slow
Im fucked in the head i know
Just give me till the morning to cope with me
Uh talk to me
Uh it just talk to me
23 years in this life but i never felt my god with me
Till i spoke to him
Plenty hours spent in the hole i had dug out for the body i hold
But i stepped back from the edge of the uh bridge
