

BOOTS - Howl

{Hook 2}

Rock star, squad car

Pitch black, cold heart

Rock star, squad car

Pitch black, cold heart

Rock star, squad car

Pitch black, cold heart

Rock star, squad car

Pitch black, cold heart

{Verse 1}

I get scared I left my best days behind me

In the clouds every road is unwinding

When those cold bitter nights come to find me

It's who I am, not what I do, that defines me

No, invisible and naked

No, everything is changing

No, into the sun

What will we become, what will we become?

{Hook 2}

{Hook}

Everything around me fade out

Howl at the moon and stay down

Everything around me fade

Howl at the moon and stay, baby don't you move

{Hook 2}

Rock star, squad car

Pitch black, cold heart

9 to 5, stay alive

Which dead president sings tonight?

{Break}

No, invisible and naked

No, but everything is changing

No, into the sun

What will we become, what will we become?

{Hook} x2

{Break}

Baby don't you, baby don't you

Baby don't you move

{Hook} x2
