

Sewerperson - Wreck me

**Separate your body from your mind
Its possible if u try
I could never die It feels like
Id come back to life In spirit
I shall breath again In minutes
I went to hell and I ain't like it so I came back to earth
I could wipe the tears ur crying
Something bout the night is like dying
Something peaceful lays in this silence
Copper found a home on my eyelids
The afterlife is not promised
If it were ill be honest
Id lay neath in this fire
In this chaos im my calmest
These promises
Hold barely anything
I pray I suffocate
On all this bullshit pain u conjured
Im alright
Ill make it by tonight
At least I have my mind and body
Im the only one that got me
Let me die my love im dnr
Disregard my beating heart
Place me in my early grave
The pastor hates me anyways
Dont u think its funny how
I will suffer for ur faults
Maybe u should help me out
Or maybe u should let me go
Let me go I swear ive had enough torture**

Sat me down and told me stay and that's an order

Flood the church if she comes in the light will scorch her

No one cried no one showed up here to mourn her
