

## **Sewerperson - Pull-out couch**

**On this pull out couch  
I am spinning round  
This the most fucked up  
I had ever been  
I know were not on good terms  
But could we try again  
Its not me talking baby its the medicine  
I won't take no more of this cheap shots  
How would u feel if i was with a grease box  
Im out of line baby i need higher dosage  
Patio lights hit my face as i blow spliffs  
I was once someone i could look up too  
U would not like me if u knew just what i go through  
Sober late nights is what i never do  
Two 5ths deep i wake up and i am brand new  
Im decaying in health  
And still i reject help  
I pour liquor in my mouth and say  
Here's to those who dont make it out**
