

BOOTS - Ride Ride Ride

{Verse 1}

**I know my eyes get hazy, looks like they could stray
Hide out in Daisy's basement every other day
I know what you know, I don't know you so
She doesn't mean a thing, she doesn't know what you know
I hide between the spaces that you left behind
You hide in daylight, hide in plain sight on the line
That way you move though makes me fall through, no
I got no love, I sing the blues, she said it now**

{Hook}

**Used to run a-round, know she burning do-own
Let me see you ride, ride, ride
Used to run me do-own when she get a-round
Let me see you ride, ride, ride**

{Bridge}

Aah, come on and let it ride

{Verse 2}

**Here we go, I'm not the better man
I'm not a perfect soul, downpour, I forgot my poncho
Northface full of black holes, your face every note
She said it know**

{Hook}

{Bridge}
