

## Jaden - Let It Breathe

{verse 1: jaden smith}

Doin' what we ain't 'posed to, girl, that's why i chose you  
I don't want to impose, just listen close to my poems  
Girl don't worry, ain't nobody know  
This the type of stuff a joker keepin' on the low  
Cause girl you know you're beautiful, a space kitten  
Relationships are messed up but your face isn't  
Used to taste like jolly ranchers  
Kisses, now they taste different  
Michael jordan say "hey pippen"  
Weightliftin', i hate sippin'  
Ain't listen, paint glistenin' from the renaissance  
Got a problem with the weather, fix it in the tennis box  
Black helicopters, even let my menace watch  
Keep it clean as mr. clean so jokers wear my dennis socks  
Look what i invented, y'all  
Hit it with a tennis ball, no consent, i rented y'all  
Land in the center, y'all, 3 dimes and a nickel  
3 dimes and i write the reciprocal with a pencil  
Luckily i'm your principal, luckily there's no principles  
Except that you're invincible, only weakened the intervals  
So listen close

{chorus 1: jaden smith & willow smith}

You might not like me, but i like you  
You might not like me, but i like you  
We should just let it breathe  
Let it breathe, let it breathe

{verse 2: jaden}

I love you, without a reason  
Like a baby was teethin', knew you 'fore i was breathin'

People say i'm a heathen, a hollywood fugitive  
Trippin' on some stupid ish, it's really just some ludicrous  
Like "who is this?" oh he talk a lot of mess and bro  
I'm too legit, you see that symbol on my chest  
So you should move and sit, because you'll leak it to the press  
If i sneeze in front of you, put my steez in front of you  
Me and moises whippin' the porsche  
And we ease in front of you  
What you wanna do?  
As long as there ain't helicopters i'm down to chill  
I don't wanna call my father but swear that i will  
Just to conversate and then i'll take care of the bill  
Man i never thought i'd fly off to paris for real  
And all of my parents for real  
Man i start to see how fictional characters feel  
And that issue embarrass me still  
Oh don't worry lil' homie, take care of the will  
Polly's gone, but he left me his parrot, it's trill  
He says, "redrum, redrum"  
He says, "redrum, redrum"  
He says, "redrum, redrum"  
And they run, they run  
And they come, they come  
And they run, they run  
{spoken word: jaden smith}  
Sidelines in pride times, no lions  
I'm so lyin' if i say i wasn't tryin' to buy into these games  
Cupid ain't do no flyin', angels ain't do no cryin', just sighin'  
I am 14, i got knots, there will be no tyin'  
No mayan can tell me what time i'ma find my mind  
So when i'm in my deathbed dyin'  
Imma be in some high end clothes with a msfts  
Tie in my hand

With that red loud siren  
I won't be denyin' my evil deeds  
I'll be at heaven's gate with a crowbar pryin'  
While they're screamin, "don't let this guy in"  
Feelin' sorry for myself, catcher in the rye-in'  
Then i woke up lyin' on the beach  
(where am i?)  
One more for the kids before they go to sleep  
Love is just so nonexistent in my existence  
So that's why i was so persistent in that first quick instant  
That we laid eyes  
If young love for them is 16 then we must be infants  
Cause this is intense, but i'm an eyewitness at love at first sight  
But this is just different than anything i've been in  
Cause it feels infinite  
Most things that you think will last will pass in the blink of a lash  
So i think i will submerge my feelings to complete this task  
And best believe i'll drown before i let us crash  
And seal it from the past  
Jeez

{verse 3: jaden}

The girl i could never have is elegant and intelligent  
And i just kind of fell, but i'm irrelevant in her eyes  
And this is somethin' i can settle with  
I'm pourin' out my heart, and girl it's kind of for the hell of it  
Girl you know that i ain't celibate  
I know who your fellow is but we can walk the park  
We can talk and we embellish in the creatures after dark  
Cause i know that i'm a rebel kid  
We come from different elements  
But baby girl i can tell i get  
On your nerves, i'm watchin' you observe  
It's like the world's an ocean and i look while you emerge

You the center of attention, girl, no matter what occurs  
Cause this youth is like a curse, but it's also like a blessing  
Cause i keep these jokers guessing, msfts rep is what i'm dressed in  
'til these jokers learn a lesson  
If you messin' with my clique, i suggest you get to steppin'  
Girl, you're like juliet with your nurse  
And you're lookin' so pretty and i've just been on a search  
You're the type of girl that i couldn't just write a verse  
So i hit it with the poetry, hopin' that it'll work  
If it doesn't then it's fine cause i'll just handle the jerks  
Girl i'm playin', no i'm serious, that's just one of my perks  
If we're friends then it's cool, just know that we were here first  
Through the thick and the thin and now we're here 'til it hurts

{hook 2: jaden smith & willow smith}

Babygirl you got me floatin' down  
Anywhere you wanna go  
Babygirl you got me floatin' down  
We can take it really slow  
Babygirl you got me floatin' down  
We can keep it on the low  
Babygirl you got me floatin' down  
And i didn't even know  
(this was just a crush  
This was just a crush  
This was just a crush)

Babygirl you got me floatin' down  
Anywhere you wanna go  
Babygirl you got me floatin' down  
We can take it really slow  
Babygirl you got me floatin' down  
We can keep it on the low

Babygirl you got me floatin' down  
And i didn't even know  
(this was just a crush  
This was just a crush  
This was just a crush)

{verse 4: jaden}

I can feel your body tryna come alive, come alive  
I feel you tryna pull me deep inside, deep inside  
No i don't wanna lie  
Ain't nobody gotta hide, no  
I can feel you touchin' me when we're home, we're old  
Now i like to look at you, you're like my clone  
So don't stare in the mirror  
'cause i'll poop all on your party  
I don't drive no white ferrari  
No things aren't clearer  
I just want to say i'm sorry  
But girl you should know yourself  
These things ain't gettin' better  
No they ain't lookin' up for us  
Kissin' you, i'm up to dusk  
So paparazzi hush and shush  
She was in her 20's, just a crush  
But you know i like it when you tell them  
Bring the whole damn menu  
And we eatin' in the venue  
Girl you know you like to ball  
Chillin' with your friends, nah, ain't see that at all  
Man we like the anunnaki, god ain't them jokers tall  
You can't buy that at the mall  
True love, you can't try that at the mall

**{interlude: jaden}**

**No yeah, um we were really good in paris, but you know**

**(no you wasn't!)**

**Every relationship has ups and downs and the downhills are what makes the u  
phills**

**(ups and downs are for a sissy!)**

**So when i'm feeling all this pain and feel like she doesn't love me or whatever**

**(she don't love you cause she with me cis'!)**

**It's just that contrast, but when i feel like she's the only person in the  
world i want to be with**

**(yeah right)**

**Just contrast with those times, you know what i'm saying?**

**{verse 5: jaden}**

**Man i got some more to say**

**Have you ever had a crush?**

**Have you ever felt the rush?**

**Make your heart stop, she don't even like to blush**

**Cause she's in her 20's**

**And i got a crush**

**Oh man i got a crush**

**Got a psychedelic dagger in my heart**

**Lil' homie, tell them paramedics rush cause she's in her 20's**

**Cause she's in her 20's**

**Cause she's in her 20's**

**Man i'm 15 on the scene, lookin' clean**

**But what does that mean? cause she's in her 20's**

**I got somethin' to say**

**Have you ever had a crush?**

**Have you ever had a rush?**

**Make my heart stop, but she didn't even blush**

**'cause she's in her 20's**

**Have you ever felt lust? 'cause she's in her 20's**

Have you ever felt lust? 'cause she's in her 20's  
Have you ever felt lust? 'cause she's in her 20's  
She's somebody you can trust 'cause she's in her 20's  
'cause she's in her 20's  
'cause she's in her 20's  
'cause she's in her 20's

{verse 6: jaden}

I hate crushes, i cover bruises with paintbrushes  
Pour it all in the music now that my bank's ruptured  
So pretty, she's so perfect, she's so worth it  
So bossy, she's so assertive, it's super sexy  
She never texts me, she never texts me, she never texts me  
Never texts me, she never texts me, forgot to text me  
Well i guess we accept the ones that neglect us  
And my mom says that we disrespect the ones that perfect us  
And try to protect us  
But girl i hope that you get this  
My thoughts are weighin' me down  
My neck can't handle the necklace  
Stare at you while you sleep, you had to call a detective  
Your father says that i'm reckless, i didn't cause all that wreckage  
Your fence was broken, i left it, had to give you this message  
I wrote it straight from the soul and it didn't make sense to text it  
So i snuck up in your room, put it on your shoulder and in return  
You sent me back a restraining order
