

## **Prez Harris - Stay Together**

**{Skit: Couple Arguing}**

**{Verse 1: Prez Harris}**

**Let's Al Green stay together**

**Girl you got drive let me be yo Carl Weathers**

**Everybody is a fan of fair weather**

**But when it gets rough can you smooth it out like leather**

**Girl, our generation is amazing**

**At making every relation hard as a math equation**

**They divide, that's separation and subtract patience**

**For easy substitution the solution is just to find ex**

**{Skit: After Break-up}**

**But nevermind that**

**Wait rewind that, if I got that time back**

**I would grind that, I could ball like major linebackers**

**MLB we fight over little things**

**But girl if we stay together we could rule the industry**

**Perfect chemistry**

**Balanced with yo symmetry**

**Real down chick but I know you got that inner G**

**I'm not the enemy, we fighting wasting energy**

**Two wrongs don't make a right girl we need synergy**

**I know you into me, know you feel proximity**

**Just believe in me, baby time could be the Remedy**

**How can we move past the present?**

**How can we rule if we peasants?**

**How can reality shows be the phoniest?**

**How can the generation most connected be the loneliest?**

**{Verse 2: aleXander}**

**It's been a long time coming**

**One room us lovers after a long, hot summer**

**One hurts listening verses on 12-bar bumper, about ya boy leaving his other**

**Winter's gone, but where it at? I want to feel another**

**Christmas wind got me feeling like we still seeing each other**

**Na~vet~©, nativity, and native weather cover**

**Until the summer comes and then we get right back under the covers**

**But like any wound we all recover**

**Now I'm moving in with you and dreaming you're a mother**

**If you can't understand the verse I'm saying have another**

**Melt your body then get off scot-free like the name "Caruthers"**

**Breaking down all of the notions that we can't be lovers-**

**Fighting only when we fight for peace and fight to keep each other**

**Banging only when we break the walls that keep us smothered**

**Equal, it's what I wanted for my people**

**{Skit: Stay Together}**
