

## **Rustage - Lost In the Night**

**{verse 1: rustage}**

**We can not be judged for what we dream for  
Venom seeping in throughout the lies and all the sweet talk  
Living in a whirlwind, i can't handle all the g force  
Lost amongst the waves, and it's been ages since i've seen shore  
There's no turning back when a decision has been made  
Every prize will have the price, that's just equivalent exchange  
I been grateful for the chance to live on minimum a day  
And i've been working like a pig, like this is spirited away  
I've been digging my own grave, now the devil is a part of me  
Ripping throughout my arteries, every piece like it's rip  
Himeno - how the ghosts of our body can make it hard to breathe  
The engine noise is orchestra of atonal harmonies  
I rip the chord, i finna flip the board, this life a civil war  
We swinging swords, but not been given thought, until i hit the floor  
Until i hit the floor, standing at the brink of war  
Never stop to question what the fuck we even living for  
**{pre-chorus: jonathan young}**  
Even in death we can not lose ourselves  
With every breath i'll see you all in hell  
Never forget all of this pain i felt  
All that is left is nought but the hand we're dealt**

**{chorus:jonathan young}**

**And i'm lost in the night, look 'em deep in the eyes, see the man that i used to be  
But i'm not satisfied, i don't care 'bout this life, but i find that i dare to dream  
And i'm losing my mind as i look at the time 'cause i'm scared that it's out of reach  
And i'm lost in the night, see a dream, go to die 'cause i know that it's n**

ot for me

**{verse 2: rustage}**

**Overclocking, i can feel it's in my body beat**

**When pain can lead to pleasure, i've been whirring in dichotomy**

**They come for me like visions, keep on asking what i want to be**

**I'm breaking out my prison 'cause i literally got that dog in me**

**Split 'em in divisions, they sorted like this a survey**

**Sick 'em on the mission, cut shorter than using cursed blade**

**This is what i'm given - the orders, another work day**

**I be living wishing to score 'em and get to first base**

**Don't know how to cry, when bodies dropping, i've been feeling empty**

**Lost the will to die, the gates of hell are always free for entry**

**Never wondered why i see their faces, and i'm green with envy**

**Nothing on my mind, i'm ripping through them like a feeding frenzy**

**Now i'm on the main course**

**Cut an opp in half like i be tearing through an a4**

**Makima, i'm leaving stained floors when i wage war**

**This is what you came for, tearing through the bodies like a motherfucking chainsaw**

**{chorus:jonathan young}**

**And i'm lost in the night, look 'em deep in the eyes, see the man that i used to be**

**But i'm not satisfied, i don't care 'bout this life, but i find that i dare to dream**

**And i'm losing my mind as i look at the time 'cause i'm scared that it's out of reach**

**And i'm lost in the night, see a dream, go to die 'cause i know that it's not for me**

**{bridge: rustage}**

**Rev it up, rip my way through the flesh and blood**

**Rev it up, spin the chain, i can't get it enough**

Rev it up, i be playing with the devil's luck  
Rev it up, let our dreams all envelop us  
Rev it up, pull the chord, and you're getting cut  
Rev it up, i'm not dying 'till i get a touch  
Rev it up, you ain't ever gonna measure up  
Rev it up, hear the sound when i rev it up!

{pre-chorus: jonathan young & rustage}

Even in death (even in death) we can not lose ourselves  
With every breath (with every breath) i'll see you all in hell  
Never forget (never forget) all of this pain i felt  
And all that is left (all that is left) is nought but the hand we're dealt

{chorus:jonathan young}

And i'm lost in the night, look 'em deep in the eyes, see the man that i used to be  
But i'm not satisfied, i don't care 'bout this life, but i find that i dare to dream  
And i'm losing my mind as i look at the time 'cause i'm scared that it's out of reach  
And i'm lost in the night, see a dream, go to die 'cause  
And i'm lost in the night, look 'em deep in the eyes, see the man that i used to be  
But i'm not satisfied, i don't care 'bout this life, but i find that i dare to dream  
And i'm losing my mind as i look at the time 'cause i'm scared that it's out of reach  
And i'm lost in the night, see a dream, go to die 'cause i know that it's not for me

{outro: rustage}

Rev it up, rev it up, rip my way through the flesh and blood  
Rev it up, spin the chain, i can't get it enough  
Rev it up, i be playing with the devil's luck

**Rev it up, let our dreams all envelop us**

**Rev it up, pull the chord, and you're getting cut**

**Rev it up, i'm not dying 'till i get a touch**

**Rev it up, you ain't ever gonna measure up**

**Rev it up, hear the sound when i rev it up!**
