

Armand Van Helden - The Tear Drop

The Tear Drop

(drop it drop it drop it...)

A leviathan exhalation of extant laser lightning electricity

A jetflash furor of fervent flame ferocity

A spectacular son et lumiere of vivifying vivacity

A whizzbang dazzling display of explomongous luminosity . .

A buttress breaching barrage blast

A tumultuous thunderbolt tirade

An annihilating eradicating avalanche of absolute absolution

An antiseptic antidote against antipathetic anathemas

A cacophonous clamorcadenza, a column crumbling cannonade

A rolling rumbling tremorquake

That shakes the belly of the earth

That cleanses and purifies

And expedites a revitalizing rebirth

The Tear Drop

And now the teardrop is growing . . . growing

Larger . . . larger . . . brighter . . . brilliantine

An ecospheric protoplasmic bubble

Of translucent membranous crystalline

Containing a polysomatic fetus

Of biogeniological perfection

Crafted out of the souls of Gods and Goddesses

Joined for incarnation

Olympus, Zeus, Yahweh, Jove

Rama, Brahma, Vidar, Kronos

Aphrodite, Zubird, Susanoo

Ahura Mazda, Logos

Immanuel, Jupiter, Hera, Epona

**Angus, Hel, Hyperion
Vulcan, Apollo, Ninigino, Indra

And Ashur, et al . .**

**An amalgamation of holy headliners
All together . . . immersed in a holy embryo
Bathing in the holy waters of Amniotis
Surrounded by a holy halo**

**A cosmic concertina of holy cooperation
Between minds, bodies and spirits
In a past, present and futurama
Concentrating into one single holy birth
On one single holy spot
The Alpha and Omega of plenipotent prana
Focusing all energy into a single moment
Of singular meditation**

Holding time and space in a static vacuum

Of silent expectation . . .
