Waite, theres a party tonight?!

Where

At oryxs house?!

Well what are we waiting for lets get going!

I would not wanna miss that!

Baby lets go to the dance party tonight

Get drunk get fucked, everythings gonna be alright

Get ready, Put all your make up on

Tonights the night we're gonna have so much fun

Intoxicated, sugareush!

My mental state is super fucked!

Durges rotting away my brain

I just might go insain

These psychedelics fooling me

But that is noting new to me

Your magical like a unicorn

My little pony uniform

Girl, you are so cool

Everything about you makes wanna drool

You can me my everything

And ill give you this wedding ring

Together forever

On the dance floor i met her

Look at your moves

Your starting to get it now

GHB turns my frond upside down

If i said that i loved you

Can you say you love me too?
Please say that you love me too
I am so obsessed with you!

Baby i like i told you it would be so fun
Look at your face, its glowing! just like the sun
Lets pop for more pill
It will add it the the trill
Baby lets keep going
Until we had our fill!

Ive been slitting my wrist
Like everyday
I love watching the blood
Leak on to the bay

All i feel is hate
Everyday is dismay
I wanna kms
Just wanna fade

On my arm theres pain
Look at my wrist and cry
Cuz the days were lame

Im close to death
Push me to the edge
I might shoot my brains

If i fail school
I might kill myself
Cuz i failed my life
Ever since my first day

**All my friends hate me
What can i say, i try to be better
But no one conveys
That they love me
So i lose interest
In loving myself
Knife ill put in this**
