

Gentleman - Lonely Days

Yes baby thanks for the way you make me feel

This love feel so real

So real, so real

You know that I will always be around

Just keep your feet on solid ground

Never will I make you frown

You talk 'bout those lonely days

Can't't stand it being on your own

Tell me 'bout your lonely days

But don't you worry

I'm coming back home

You talking 'bout lonely days

Can't stand it being by yourself

Tell me 'bout your lonely days

You need me and no one else

I understand every word you say

And I've tried my best not to stay away from you

We had come a long way

And I never regret a moment I spent with you

And I will never give you up

No matter what people may say

Or what dem wanna do

I know that you miss my touch

Just relax for a moment baby girl

You talk 'bout those lonely days

Can't't stand it being on your own

Tell me 'bout your lonely days

But don't you worry
