

Gentleman - Bridge Over Wall

The ceiling too low

Time now fi rise up to the fullness

Can't afford to let somebody come pull this

I couldn't sleep last night toss and turning was fed up

The morning rise thunder storm ina me head up

The same old same a recipe me hafi give up

Changing lane that a the way me have to live up

Now that I'm prepared and ready to rumble

Not another second me a waste nuh grumble

Things in life gees around and if the whole world a stumble

Me still a stand fall and nuh fumble

Now me build a bridge over all

Truths and rights shall surely sustain us and rote

Over wall

Rich and poor unknown and famous

Sometimes me have to wonder

What the hell dem thinking

Preparations must be made before the boat is sinking

Lighthouse up ahead life light is blinking

Water all around but hold your breath

Because there ain't no drinking

It nuh pretty pon the shore we know the truth about it

Disguising the game and so you mute about it

Problem never change until we find the root about it

Try it me friend and see the proof about it

Now me build a bridge over all

Truths and rights shall surely sustain us and rote

Over wall

Rich and poor unknown and famous

**Sometimes you can't bother but you got to
Caught up in a things you find out you not to
Nuh make no friend no enemy come flop you
Stoned cold we freeze like a statue
And who nuh try to make a progress try to stop you
The sweetest smiling face a set the trap too
Ina the brightness of the day dem all attack you
And even dirty Babylon a fly the flag too
Now me build a bridge over all
Truths and rights shall surely sustain us and rote
Over wall
Rich and poor unknown and famous**
